

AMACO® Matt Glazes — Lead Free

Cone 05. The AMACO® LM Matt Glaze Series provides a smooth, satin finish for decorative art pottery and tile. These glazes are suitable for glazing pottery shapes formed from all AMACO® dry or moist firing clays. Because AMACO® LM Matt Glazes are nonflowing, they are adaptable for some unique types of decoration.

AMACO® LM Matt Glazes are supplied in liquid, ready-to-use form. Brushing, pouring, dipping, and spraying are all suitable methods of application. Recommended firing temperature for these glazes is Cone 05 (1911°F, 1044°C). These glazes must be applied on a mature Cone 04 (1971°F, 1077°C) bisque. Slow firing is recommended.

NON-TOXIC
Conforms to
ASTM D-4236
