

# ALLIGATOR (LT) LOW FIRE GLAZES

**NON-TOXIC**  
Conforms to  
ASTM D-4236

LT-13 (1)   
Dalmatian

LT-15 (1)   
Speckled Blue Gray

LT-17 (4)  
Liana Gray

LT-30 (4)  
Tobacco Brown

LT-32 (4)  
Sandstone

LT-34 (4)  
Antique Brown

LT-113 (4)  
Sand

LT-132 (1)   
Jewel Brown

LT-147 (4)  
Yellow Green

LT-161 (4)  
Tiger Eye

LT-166 (4)  
Mottled Orange

## CL GLAZES RESTRICTED FROM USE K-6 (ASTM D-4236/FHSA)

Conforms to  
ASTM D-4236

LT-3 (1)   
Old Pewter

LT-12 (1)   
Speckled Green

LT-16 (1)   
Green Stone

LT-22 (4)  
Tahitian Blue

LT-24 (3)  
Antique Blue

LT-31 (3)  
Cinnamon

LT-48 (4)  
Moss Agate

LT-115 (3)  
Frosted Jade

LT-121 (3)  
Light Blue

LT-122 (3)  
Dark Blue

LT-130 (3)  
Buffalo Brown

LT-133 (3)  
Pinkish Brown

LT-142 (3)  
Antique Green

LT-144 (3)  
Green Blend

**LT Series  
glazes fired  
on 25M  
White Clay  
bisque  
buttons.**

**No two firings will be the same.  
Kiln firing and glaze application  
will change effects. NOTE: Slow firings  
produce matte effects. Fast firings  
produce gloss effects.**

All AMACO® glazes that carry the AP Non-Toxic seal in liquid form also carry the seal in dry form, but mixing instructions on the label should be followed to prevent dust to ensure safe use.

## AMACO® Textured Alligator Glazes

CL colors restricted from use K-6 (ASTM D-4236/FHSA) All LT Series glazes are lead free except LT-24, LT-31, LT-115, LT-121, LT-122, LT-130, LT-133, LT-142, and LT-144.

**Cone 06-04.** No two pieces glazed with AMACO® LT Textured Alligator Glazes are ever alike due to the many variations in texture which occur in firing. Variegated matt textures predominate at the lower firing temperatures and gloss textures at the higher with a mingling of matt and gloss between the extremes.

These glazes may be used on pottery shapes formed from all AMACO® moist or dry firing clays.

AMACO® LT Textured Alligator Glazes are supplied in liquid, ready to use form. They are applied on bisque or greenware. The recommended firing temperatures are Cone 06-05 (1855°-1911°F, 1013°-1044°C). Category 1 and 4 glazes are leadless. These glazes must be applied on a mature Cone 04 (1971°F, 1077°C) bisque then glaze fired to Cone 05 (1911°F, 1044°C).

Jewel Brown is a dark brown and amber aventurine type glaze with infinite depth and gold flecks appearing throughout. It should be brushed very thoroughly to reveal the lovely gold flecks. Firing requires good ventilation. Fire to Cone 06-05 (1855°-1911°F, 1013°-1044°C).

Note: We recommend firing LT-22 at Cone 06 (1855°F, 1013°C) because it flows more than other glazes in this series.

## Textured Alligator Glazes
