

Why Brent® is the World's Most Popular Wheel

Reversible Electronic Speed Control

The Brent® B, C, CXC, EX, and 16 wheels all feature digital control that senses the wheel head speed and the weight of the load to automatically adjust the torque. This offers the potter smooth pedal response and maximum control.

Accessories Included

All Brent® wheels include at no extra charge an AMACO® Plasti-bat®—the versatile, long-lasting, high quality bat that is virtually indestructible. Plasti-bats are easy to clean and will not splinter, delaminate, swell, or shrink. All Brent® wheels (except ie and ie-t) also include a two-piece, high density, polypropylene molded splash pan at no extra charge. It snaps under the wheelhead with no bolts, pins or screws and is easily removed for cleaning.

“I’ve had my Brent for over thirty years. That’s a lot of miles without a repair. I wish they made cars like that.”

Ron Korczynski, Artist and Educator, Natrona Heights, PA

Five Year Warranty

All Brent® wheels are backed by a **FIVE YEAR WARRANTY**. You probably won’t have any trouble with your Brent® wheel during the warranty period, but if you do, call the factory technician toll-free direct: **(800) 999-5456**, Monday—Friday, 7:00 a.m.—3:30 p.m. EST.

Outstanding Technical Service

Brent® offers the best service in the industry through our network of authorized Brent® dealers and a toll-free number direct to our factory technician—**(800) 999-5456**. The technician will help you fix your Brent® wheel over the phone if possible. If your wheel needs parts, we ship within 24 hours. **Wheels returned for factory service receive the highest priority!** The control box and motor are also separate so there is no need to replace both if one fails. Parts are always available for current and older models.

Strength and Durability Are Never a Question

“To demonstrate the structural integrity of Brent® wheels, a ton of clay was placed on the wheel head of a Brent® CXC for 12 hours. When the wheel was turned on, it made several flawless revolutions. The fact that the CXC not only supported the ton of clay, but actually turned it, is a tribute to the years of dedication to quality built into every Brent® wheel.”

Rick Taylor, Supervisor, Brent Division

Brent® Purchases Qualify You to Receive AMACO® Glazes at No Charge

Purchase a Brent® EX, CXC, C, B, J, EJ, No. 16 potter’s wheel, or an AMACO® No. 1 or 2C potter’s wheel and receive \$70 in AMACO® glazes (click here for details). This program, only available from AMACO/Brent, is a bonus for selecting a Brent® or AMACO® wheel for your studio or classroom.
