- E-6000 Glue
Acrylic Paint for zebra stripes, animal eyes, lion face
Permanent Marker for lines on ark
AMACO® All-Purpose Sealer
Large Pin Back
Electric Skillet
Water

INSTRUCTIONS

1. Using pattern below, cut out pieces for ark, animals, cloud and water from the Friendly Plastic®. Cut narrow strips for rainbow. Use colors listed or select your own.
2. Bond pieces together by softening any two in warm water until tacky then press firmly together. Repeat this process until all animals and ark pieces are bonded together like the drawing. Soften thin color strips in warm water one at a time. Bend to form rainbow and bond together as described above.
3. Glue and assemble all pieces. Paint zebra stripes, animal eyes and lion face with acrylic paint. Let dry. Detail markings on ark with permanent marker and allow to dry.
4. Glue pin back on back.
5. Apply AMACO® All-Purpose Sealer to seal paint and add glossy shine.
